

MARQUIS

**A Story of Affinity
and Simplicity**

Integrated Print & Logistics Solution

AUTOMATIC REPLENISHMENT PROGRAM

INVENTORY MANAGEMENT MADE SIMPLE!

WHAT IS ARP?

Automatic Replenishment Program (ARP) is a workflow connected to your sales trend **that automatically triggers the replenishment** of a title to ensure optimal inventory and prevent shortages and overstock.

ARP BENEFITS

- Track inventory and print automatically with online real-time visibility to inventory levels
- Never miss a sale
- Reduce the need for last minute, urgent, print-on-demand orders with high cost per unit
- Lower overall cost of ownership and reduce carbon footprint
- Reduce turnaround time and manual touchpoints
- Print and store closer to your reader

A Story of Affinity
and Simplicity

Automatic Replenishment Program

HOW IT WORKS

Receive a low inventory alert
based on your selling trend

Confirm your
replenishment
order via
Marquis's online
interface

Marquis
receives
your
order!

You can
choose to utilize
our state-of-the-art
warehousing facilities
or we can connect
to your own warehouse
or any distributor
of your choice.

Order is in
production!

Order ships to warehouse!

Warehouse
receives
the order

Replen-
ishment is
complete
to ensure
optimal
inventory!

The cycle
restarts!

MARQUIS

A Story of Affinity and Simplicity

Automatic Replenishment Program ONLINE SOLUTION

- Gain full autonomy for confirming and modifying replenishment orders, along with submitting shipment requests directly to the warehouse
- Access real-time inventory data 24/7, monitor trends, receive replenishment alerts, generate reports, and retrieve historical order and shipment information
